HIS PLURALITY IS ABOUT 33,000

James F. Fielder Increases Lead in New Jersey.

LEGISLATURE IS DEMOCRATIC

David I. Walsh Is Chosen Governor of Massachusetts by the Largest Plurality Ever Given a Democrat for the Office—Complete New York City Returns Show Crushing Defeat of Tammany.

Trenton, N. J., Nov. 6.—Returns from Tuesday's state election, while not officially tabulated, indicate that James F. Fielder, Democrat, will receive a plurality of at least 33,000 over Edward C. Stokes, Republican, in the governorship race.

The Democrats also gained control of both branches of the legislature. The state senate will stand eleven Democrats to ten Republicans and the assembly will be composed of thirty-six Democrats and twenty-four Republicans.

This will insure a Democratic majority of thirteen on joint ballot and make certain the selection by the legislature of a Democratic comptroller.

Mr. Fielder received pluralities in fifteen of the twenty-one counties, while Stokes procured pluralities in the six remaining counties.

Everett Colby, Progressive candidate, is estimated to have polled upwards of 40,000 in the state.

Mr. Stokes wired Mr. Fielder congratulations.

TAMMANY DEFEAT COMPLETE

Fusionists Pile Up Plurality for Mitchell of 121,000.

New York, Nov. 6.—Each successive recapitulation affirmed the crushing defeat of Tammany forces in Tuesday's election. The organization was not only engulfed in a plurality of 121,209 votes with which the fusionists elected John Purroy Mitchell mayor of New York city, but in many upstate districts a severe rebuke was administered to the Tammany Democracy that has been in control of the state since the days of Governor Hughes.

William Sulzer, deposed by Tammany's exposure of his unlisted campaign contributions, was re-elected to public office, less than three weeks having intervened since he was removed from the governor's chair. He will return to Albany in January as a member of the assembly. Many of the legislators who voted to impeach him met defeat, with the result that he will sit in an anti-Tammany house. On the basis of incomplete returns it was estimated that the next assembly will be composed of eighty-five Republicans, seventeen Progressives and forty-eight Democrats. Many of the latter are said to be men of progressive or independent tendencies.

WALSH POLLS IMMENSE VOTE

Massachusetts Election Proves Democratic Landslide.

Boston, Nov. 6.—The extent of the Democratic landslide in Tuesday's state election was not fully realized until a recapitulation of the figures. Then it was found that Lieutenant Governor David I. Walsh had been elected to the governorship in a four cornered contest by a plurality of 53,691. This is the largest plurality ever accorded a Democratic candidate for the office.

Complete returns give the vote for governor as follows:

David I. Walsh (Dem.) 180,368; Charles S. Bird, (Pro.) 126,677; Augustus P. Gardner, (Rep.) 116,314; Eugene N. Foss, (Ind.) 20,817.

The new governor carried with him into office every Democratic candidate on the state ticket, with the possible exception of attorney general. This is another result unique in Massachusetts political history.

ONE OF CELEBRATORS DYING

Another Wounded When Loser Takes Revenge on Election Victims.

Chicago, Nov. 6.—Celebration of the victory of the citizens' ticket in East Chicago, Ind., led to an affray in which one man was probably mortally shot and another is dying from being beaten with bottles.

Joseph Churilla, an adherent of the losing side, was attacked and beaten when he interrupted the cheers of a crowd of victors in a saloon. Churilla fired two shots from where he lay on the ground and Alexander Knavel fell with a bullet in his leg and one in his abdomen.

RESULTS IN SERIOUS RIOT

Attempt to Operate Street Cars at Indianapolis.

Indianapolis, Nov. 6.—An effort to resume street car traffic, which has been tied up since last Friday by a strike, resulted in the serious injury of seven strikebreakers and two policemen. The car operated by strikebreakers was demolished.

A crowd of several thousand persons, many of them armed with bricks, surrounded the car and prevented its progress, while a downpour of missiles from the roofs and windows of buildings threatened the lives of the strikebreakers and police.

FINAL PLEA IN HARVESTER CASE

Attorney General Asks for Decree of Dissolution.

McREYNOLDS ENDS ARGUMENT

Federal Court Is Urged to Restore Original Companies, Forbid Interlocking Directorates and Prevent Stockholders of One Concern Holding Shares in Any of the Others.

St. Paul, Nov. 6.—Attorney General J. C. McReynolds' final plea in the Harvester case is interpreted by many lawyers who were present as a statement of a new "trust busting" policy adopted on the part of the government.

Considerable emphasis was laid on the request that stockholders of the companies be kept separate, the attorney general insisting that no dissolution would be real unless this were accomplished. No reference was made in this connection to previous dissolutions.

Attorney General McReynolds asked for an interlocutory decree which would do these things:

Dissolve the International Harvester company into its original companies as nearly as possible.

Forbid interlocking directorates among these dissolved companies.

Forbid stockholders of any one of these companies to hold stock in any other company now in the combination.

Receiver May Draw Plan.

That a plan to restore competition be submitted to the court within sixty days by the International and failing in this that the court appoint a receiver to work out such a plan of dissolution.

The rebuttal argument of the attorney general was remarkable particularly for its brevity, the single point it covered and its display of oratorical ability.

The single point raised was whether a monopoly existed. If it did, he said, neither the executive nor judicial departments of the government had any choice save to dissolve it. The intent of the combined harvester companies, he insisted, was immaterial under the Sherman law. It was likewise immaterial whether any one actually suffered by reason of the existing combination.

Says Defense Admits Combine.

That a combination of companies did exist, the attorney general said, was admitted by the defense. To prove that this combination was a monopoly in the meaning of the Sherman law he read figures taken from testimony which showed that 90 per cent of the business in the leading lines was controlled by the International Harvester company.

This was the substance of the attorney general's reply to all the two days' arguments made before Judges Sanborn, Hook and Smith by W. D. McHugh, Edgar A. Bancroft and John P. Wilson on behalf of the International company.

Just before the government's closing argument Mr. Wilson had made a plea for a dismissal of the case without prejudice to either side, saying that the government would then have the right to intervene whenever any one was injured by the operation of the combination.

The attorney general asked for a dissolution decree and the court took the case under advisement. Owing to the mass of evidence it is not expected that a decree will be handed down for several weeks and possibly not for many months.

In answer to a question of one of the judges as to how competition might be restored by dissolution Mr. McReynolds said:

"That is a question that need not concern this court at this time."

Women in Gambling Club.

Chicago, Nov. 6.—What was said by the officials to have been an extensive gambling scheme, in which more than 500 women participated and to which women were attracted through the mail, resulted in a federal indictment against Mrs. Sarah Foster. The woman is charged with conducting a card game and lottery.

400 INVITED TO WEDDING

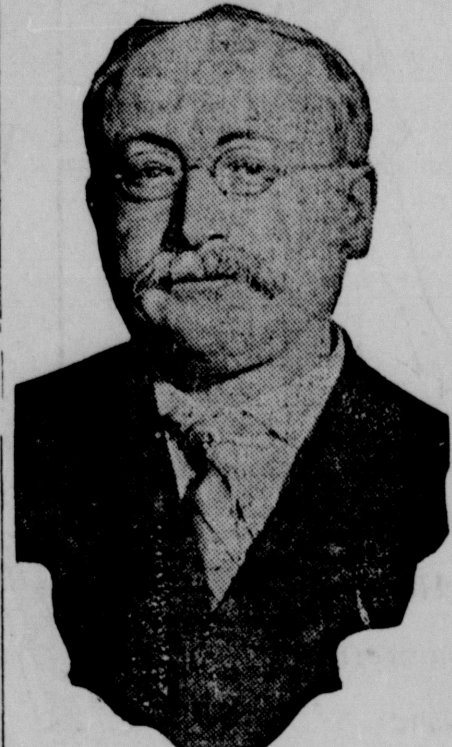

White House Messengers Busy Summoning Guests.

Washington, Nov. 6.—White House messengers were busy distributing invitations to the wedding on Nov. 25 of Miss Jessie Wilson and Francis Bowes Sayre.

About 400 invitations were sent out, approximately 250 of them being directed to residents of Washington. The invitation list is limited to the capacity of the ball room.

VICTOR BERGER.

Is Not Discouraged by Socialist Defeat.

© 1912, by American Press Association.

BERGER IS NOT DISCOURAGED

Can See Ultimate Triumph of Socialism in Present Elections.

Milwaukee, Nov. 6.—Victor Berger, former Socialist congressman, is not discouraged by the defeat of the Socialist candidate for mayor of Schenectady, N. Y., by a combination of nonpartisans.

"The situation is the same as it was in Milwaukee," Berger said. "It required a combination of the old parties to defeat Mayor Lunn's candidate. The majority was small and if he continues his fight the next time he will win."

Laud Defeat of Tammany.

London, Nov. 6.—The morning papers congratulate the American people on the defeat of Tammany, which, they consider, gives hope of a new birth of democracy in America and a higher standard of civic responsibility. They think also that it is proof of renewed confidence in President Wilson's administration.

New Election for Boston.

Boston, Nov. 6.—This city plunged into an exciting municipal campaign only a few hours after the state election was decided. Nomination papers were taken out in behalf of seven candidates for mayor. Whether Mayor Fitzgerald will enter the contest is not known.

NEW FEATURE IN CURRENCY MEASURE

Provides for Centralization of Half the Reserve.

Washington, Nov. 6.—A new feature was tentatively written into the administration currency bill by the senate committee after a heated wrangle.

The plan was characterized by Chairman Owen, chief administration supporter in the committee, as "equivalent to a central bank."

The new scheme would provide for the centralization of one-half of the reserves to be held by the regional banks in the proposed new system.

This proportion would be placed under the control of the federal reserve board and would be located in Washington, to be administered for the aid and convenience of the entire banking system.

Senators Reed and Hitchcock joined with the Republicans in voting for the plan, opposed by Senators Owen, Pomerene, Hollis, O'Gorman and Shafroth.

Senator Owen was agitated over the progress of affairs in the committee.

He declared, if given an opportunity, he would demonstrate that the plan would not work.

It was arranged that Senator Owen should make an argument on the point.

ADMITS HE KILLED DEPUTY

Negro Says He Shot Officer in Self-Defense.

Springfield, Ill., Nov. 6.—Charles Rice, a negro, held as a suspect for the murder of William Martin, special deputy sheriff, last Monday, confessed to committing the crime.

His plea was self-defense. He said he thought the deputy, who had just arrested George Anderson, was going to shoot him.

ECUADOR REBELS KILLED.

Guayaquil, Ecuador, Nov. 6.—A band of rebels under Colonel Carlos Alfaro was defeated by government forces. Several of the rebels were killed.

Plurality for Lee 42,000.

Baltimore, Nov. 6.—Practically complete returns from Tuesday's election in Maryland indicate that Blair Lee, Democrat, was elected to the United States senate by a plurality of 42,000.

Great Qualities.

If we are constant to great qualities we cannot be inconstant to their possessors.—R. Le Gallienne.

MEXICAN POLICY HARD TO EXPLAIN

To Prevent Intervention One of the Principal Ideas.

OPPOSITION TO GEN. HUERTA

Inequalities of Postal Law Pointed Out. Cheaper to Send Book to England by Mail Than to Send It Across the Street—"Make Believe" Session of Congress Is Criticized.

By ARTHUR W. DUNN.

Washington, Nov. 6.—[Special.]—Our policy in Mexico—or perhaps it would be well to say with Mexico—seems to be that we want to Monroe doctrine that country to the extent of having all to say, as far as outside influence shall go, seeking the co-operation of foreign nations only in sustaining our position, but insisting that foreign nations shall not dictate terms to Mexico or set up a policy or recognize a government which we deem objectionable.

If a reader cannot understand just what is meant he will be in about the same position as the corps of Washington correspondents who spend half an hour twice a week with the president and as much time every day with the secretary of state trying to find out just what is going on and what it is intended to do.

Fending Off Intervention.

As a matter of fact, the administration is doing its utmost to prevent intervention, to prevent the necessity of sending troops into Mexico or making any hostile movement against any portion of the country or against any faction. That position would be much easier if this government had not absolutely determined that Huerta is not to be recognized and that no government of which he is the head can ever have the support of the United States.

As long as Huerta is in control of Mexico the position of the United States will be peculiar, as we will not deal with him as a rightful head of affairs. Foreign nations are not quite so particular, but they do want their citizens and their property protected.

Postal Inequalities.

Before the days of the parcel post law packages could be sent cheaper to any part of Europe or to Asia cheaper than from point to point in the United States. And all the inequalities have not been straightened out. For instance, a book can be sent to England or Italy or to almost any part of the world from any place in the United States for the same rate of postage as it would take to send it across the street or from New York to Jersey City. With parcels it is different. There are some curious quirks in our postal system.

"Make Believe" Session.

"We are boys grown up," once remarked John Sharp Williams in the house of representatives. And every time congress enters upon a farcical session I am reminded of the Mississippians' words. The present exhibition is just what the children used to do when they called it "make believe." Congress is having a "make believe" session. In the words of Senator Ashurst, the senate "pingpongs" from Monday to Thursday and from Thursday to Monday without doing anything in legislation. The house meets every day because it has no way of adjourning three days at a time.

And all because President Wilson indicated that he did not desire the session to adjourn. The Democrats are carrying out the letter of his wishes, but by telling their men to go home, that there will be no business transacted, they are making sad havoc with the spirit of the president's directions.

Rules Never Change.

Propositions are often presented for changing the rules of the senate, but no changes are ever made. "These 'Maurian epigrams,' mislabeled the rules of the senate," is the way the late Senator White once referred to the code under which the senate is supposed to act, but which is "more honored in the breach than the observance."

"Patriotic Work."

"I introduce a resolution for Senator Clapp of Minnesota," Senator Kenyon told the senate one day. "Who is absent engaged in patriotic work. I also introduce a resolution for the senator from Idaho, Mr. Borah, also absent doing patriotic work."

It was understood that Clapp was making bull moose speeches and Borah was making Republican speeches in the states where elections were to be held.

Clinching It.

Senator Bacon is given to making quite extended arguments and oftentimes says "I repeat," etc., in order to emphasize his statements. He caused a smile in the senate recently by saying, "I repeat that I have not another word to say."

A Possible Bias.

"Of course," remarked John Sharp Williams, speaking of a man interested in legislation, "he no doubt has a bias, just as I would have in questions between north and south, although I try to have none."

But John Sharp knows he is biased; that he really has a deep sectional feeling when the test comes.

Lodge Heads Harvard Alumni.

Boston, Nov. 6.—United States Senator Henry Cabot Lodge, class '71, has been elected president of the Harvard Alumni association for the coming year, it was announced.

SIR C. A. SPRING-RICE.

British Ambassador Improved in Health.

Boston, Nov. 6.—After a few days spent here the British ambassador, Sir Cecil Arthur Spring-Rice, left for Washington. He has improved in health.

FUNK TESTIFIES IN CONSPIRACY CASE

Prosecution Rests in Trial of Lawyer and Detective.

Chicago, Nov. 6.—The state rested its case against Daniel Donahoe and Isaac Stiefel, the lawyer and detective, charged with having conspired to defame Clarence S. Funk.

Funk put the finishing touches on the testimony for the prosecution by taking the witness stand and declaring that he never had seen Mrs. John C. Henning before she testified in this trial.

He disclosed what the state alleged to be the motive for the attacks on Funk by repeating a portion of his testimony in the Lorimer investigation.

The court would not allow Mr. Funk to testify that he had been watched by detectives, one of whom told him that he was in the employ of Edward Hines.

The names of Hines and Lorimer were brought in when Funk reiterated that Hines had asked him for \$10,000 toward a \$100,000 fund that had been used to "put Lorimer over."

An attempt was made by counsel for Stiefel to have the charges against him dismissed on the ground that he was insufficiently implicated by the testimony. The action was denied.

GIRL STANDS BY PRISONER

Wisconsin Man Indicted for Violating White Slave Act.

Chicago, Nov. 6.—Arthur Carey, a furnace salesman of Green Bay, Wis., was indicted for violation of the Mann act. The federal grand jury acted only a few hours before the statute of limitation covering Carey's alleged offense became operative.

Carey is charged with transporting Laura Fleucker from Silver Lake, Wis., to Antioch, Ill., on Nov. 6, 1910.

The law requires that the indictment be made within three years of the violation of the Mann act. Carey was held to the federal grand jury at Green Bay on Monday. No grand jury was in session at Milwaukee and Carey was rushed to Chicago before it was too late for the government to prosecute him.

Miss Fleucker has refused to have any part in the prosecution of Carey. She endeavored to prevent his arrest and went so far as to point a revolver at the deputy marshals. She alleged that she walked across the Wisconsin-Illinois state line with Carey.

MAD KING OTTO DEPOSED

Prince Regent of Bavaria Ascends Throne of Ludwiga.

Munich, Bavaria, Nov. 6.—The insane King Otto of Bavaria has been deposed from the throne which he occupied for twenty-seven years without being aware of his position. Prince Regent Ludwig proclaimed himself king in pursuance of the provisions of a law just enacted by the two houses of the Bavarian diet.

The new King of Bavaria is to be known as Ludwig III. He probably will take the constitutional oath Nov. 8.

A royal proclamation was posted throughout the kingdom declaring incurable the insanity which has incapacitated Otto from ruling and states that in consequence of this Prince Regent Ludwig has brought his regency to an end, has ascended the throne and nominated himself king.

The deposed King Otto was born April 27, 1848, and succeeded his brother, Ludwig II., who drowned himself in Starnberg lake, June 13, 1886.

HUERTA GETTING READY FOR WAR

BIG INCREASE IN EXPORTS

American Prunes Find Welcome in Far Off Countries.

Washington, Nov. 6.—Stewed prunes, that staple dish of the American boarding house, apparently has found a welcome home in many foreign lands, judging of the large increase in exports from Pacific coast states. Figures compiled by the bureau of foreign and domestic commerce show that during the fiscal year of 1913 more than 118,000,000 pounds, valued at \$6,667,000, were shipped across the seas. In 1898 the exports amounted only to 16,000,000 pounds.

CUSTOMS MEN HEAR MITCHEL

Newly Elected Gotham Mayor Outlines Plans for Economy.

New York, Nov. 6.—The national conference of United States custom house collectors, deputy collectors and surveyors was addressed by John Purroy Mitchell, collector of the port of New York and now mayor elect of the city.

The conference is considering more efficient and economical methods of operating customs service.

TRAIN RUNS INTO SLIDE

Engineer Probably Mortally Hurt in Western Pacific Accident.

Oroville, Cal., Nov. 6.—A train on the Western Pacific railroad known as the Panama-Pacific express plunged into a landslide which had covered the tracks with tons of rock and earth and was wrecked, twenty-three miles north of here.

Engineer John McGraw was perhaps fatally injured. None of the passengers was hurt.

Volturno Hero Promoted.

New York, Nov. 6.—Maurice Spangenberg, first officer of the steamer Grosser Kurfuerst, has been promoted to a captaincy in recognition of the rescue by himself and his men of 105 passengers of the steamer Volturno which burned at sea.

HIS PLURALITY IS ABOUT 33,000

James F. Fielder Increases Lead in New Jersey.

LEGISLATURE IS DEMOCRATIC

David I. Walsh Is Chosen Governor of Massachusetts by the Largest Plurality Ever Given a Democrat for the Office—Complete New York City Returns Show Crushing Defeat of Tammany.

Trenton, N. J., Nov. 6.—Returns from Tuesday's state election, while not officially tabulated, indicate that James F. Fielder, Democrat, will receive a plurality of at least 33,000 over Edward C. Stokes, Republican, in the governorship race.

The Democrats also gained control of both branches of the legislature. The state senate will stand eleven Democrats to ten Republicans and the assembly will be composed of thirty-six Democrats and twenty-four Republicans.

This will insure a Democratic majority of thirteen on joint ballot and make certain the selection by the legislature of a Democratic comptroller.

Mr. Fielder received pluralities in fifteen of the twenty-one counties, while Stokes secured pluralities in the six remaining counties.

Everett Colby, Progressive candidate, is estimated to have polled upwards of 40,000 in the state.

Mr. Stokes wired Mr. Fielder congratulations.

TAMMANY DEFEAT COMPLETE

Fusionists Pile Up Plurality for Mitchell of 121,000.

New York, Nov. 6.—Each successive recapitulation affirmed the crushing defeat of Tammany forces in Tuesday's election. The organization was not only engulfed in a plurality of 121,209 votes with which the fusionists elected John Purroy Mitchell mayor of New York city, but in many upstate districts a severe rebuke was administered to the Tammany Democracy that has been in control of the state since the days of Governor Hughes.

William Sulzer, deposed by Tammany's exposure of his unlisted campaign contributions, was re-elected to public office, less than three weeks having intervened since he was removed from the governor's chair. He will return to Albany in January as a member of the assembly. Many of the legislators who voted to impeach him met defeat, with the result that he will sit in an anti-Tammany house.

On the basis of incomplete returns it was estimated that the next assembly will be composed of eighty-five Republicans, seventeen Progressives and forty-eight Democrats. Many of the latter are said to be men of progressive or independent tendencies.

WALSH POLLS IMMENSE VOTE

Massachusetts Election Proves Democratic Landslide.

Boston, Nov. 6.—The extent of the Democratic landslide in Tuesday's state election was not fully realized until a recapitulation of the figures. Then it was found that Lieutenant Governor David I. Walsh had been elected to the governorship in a four cornered contest by a plurality of 53,691. This is the largest plurality ever accorded a Democratic candidate for the office.

Complete returns give the vote for governor as follows:

David I. Walsh (Dem.) 180,368; Charles S. Bird, (Pro.) 126,677; Augustus P. Gardner, (Rep.) 116,314; Eugene N. Foss, (Ind.) 20,817.

The new governor carried with him into office every Democratic candidate on the state ticket, with the possible exception of attorney general. This is another result unique in Massachusetts political history.

ONE OF CELEBRATORS DYING

Another Wounded When Loser Takes Revenge on Election Victors.

Chicago, Nov. 6.—Celebration of the victory of the citizens' ticket in East Chicago, Ind., led to an affray in which one man was probably mortally shot and another is dying from being beaten with bottles.

Joseph Churilla, an adherent of the losing side, was attacked and beaten when he interrupted the cheers of a crowd of victors in a saloon. Churilla fired two shots from where he lay on the ground and Alexander Knauer fell with a bullet in his leg and one in his abdomen.

RESULTS IN SERIOUS RIOT

Attempt to Operate Street Cars at Indianapolis.

Indianapolis, Nov. 6.—An effort to resume street car traffic, which has been tied up since last Friday by a strike, resulted in the serious injury of seven strikebreakers and two policemen. The car operated by strikebreakers was demolished.

A crowd of several thousand persons, many of them armed with bricks, surrounded the car and prevented its progress, while a downpour of missiles from the roofs and windows of buildings threatened the lives of the strikebreakers and police.

FINAL PLEA IN HARVESTER CASE

Attorney General Asks for Decree of Dissolution.

M'REYNOLDS ENDS ARGUMENT

Federal Court Is Urged to Restore Original Companies, Forbid Interlocking Directorates and Prevent Stockholders of One Concern Holding Shares in Any of the Others.

St. Paul, Nov. 6.—Attorney General J. C. McReynolds' final plea in the Harvester case is interpreted by many lawyers who were present as a statement of a new "trust busting" policy adopted on the part of the government.

Considerable emphasis was laid on the request that stockholders of the companies be kept separate, the attorney general insisting that no dissolution would be real unless this was accomplished. No reference was made in this connection to previous dissolutions.

Attorney General McReynolds asked for an interlocutory decree which would do these things:

Dissolve the International Harvester company into its original companies as nearly as possible.

Forbid interlocking directorates among these dissolved companies.

Forbid stockholders of any one of these companies to hold stock in any other company now in the combination.

Receiver May Draw Plan.

That a plan to restore competition be submitted to the court within sixty days by the International and failing in this that the court appoint a receiver to work out such a plan of dissolution.

The rebuttal argument of the attorney general was remarkable particularly for its brevity, the single point it covered and its display of oratorical ability.

The single point raised was whether a monopoly existed. If it did, he said, neither the executive nor judicial departments of the government had any choice save to dissolve it. The intent of the combined harvester companies, he insisted, was immaterial under the supreme court interpretations of the Sherman law. It was likewise immaterial whether any one actually suffered by reason of the existing combination.

"The Sherman law," he said, "has been held to forbid the existence of a monopoly. Whether we think this is a good economic policy or not does not matter. There is but one course open and that is to dissolve."

Says Defense Admits Combine.

That a combination of companies did exist, the attorney general said, was admitted by the defense. To prove that this combination was a monopoly in the meaning of the Sherman law he read figures taken from testimony which showed that 90 per cent of the business in the leading lines was controlled by the International Harvester company.

This was the substance of the attorney general's reply to all the two days' arguments made before Judges Sanborn, Hook and Smith by W. D. McHugh, Edgar A. Bancroft and John P. Wilson on behalf of the International company.

Just before the government's closing argument Mr. Wilson had made a plea for a dismissal of the case without prejudice to either side, saying that the government would then have the right to intervene whenever any one was injured by the operation of the combination.

The attorney general asked for a dissolution decree and the court took the case under advisement. Owing to the mass of evidence it is not expected that a decree will be handed down for several weeks and possibly not for many months.

In answer to a question of one of the judges as to how competition might be restored by dissolution Mr. McReynolds said:

"That is a question that need not concern this court at this time."

Women in Gambling Club.

Chicago, Nov. 6.—What was said by the officials to have been an extensive gambling scheme, in which more than 500 women participated and to which women were attracted through the mail, resulted in a federal indictment against Mrs. Sarah Foster. The woman is charged with conducting a card game and lottery.

400 INVITED TO WEDDING

White House Messengers Busy Summoning Guests.

Washington, Nov. 6.—White House messengers were busy distributing invitations to the wedding on Nov. 25 of Miss Jessie Wilson and Francis Bowes Sayre.

About 400 invitations were sent out, approximately 250 of them being directed to residents of Washington.

The invitation list is limited to the capacity of the ball room.

VICTOR BERGER.
Is Not Discouraged by Socialist Defeat.

© 1912, by American Press Association.

BERGER IS NOT DISCOURAGED

Can See Ultimate Triumph of Socialism in Present Elections.

Milwaukee, Nov. 6.—Victor Berger, former Socialist congressman, is not discouraged by the defeat of the Socialist candidate for mayor of Schenectady, N. Y., by a combination of nonpartisans.

"The situation is the same as it was in Milwaukee," Berger said. "It required a combination of the old parties to defeat Mayor Lunn's candidate. The majority was small and if he continues his fight the next time he will win."

Laud Defeat of Tammany.

London, Nov. 6.—The morning papers congratulate the American people on the defeat of Tammany, which, they consider, gives hope of a new birth of democracy in America and a higher standard of civic responsibility. They think also that it is proof of renewed confidence in President Wilson's administration.

New Election for Boston.

Boston, Nov. 6.—This city plunged into an exciting municipal campaign only a few hours after the state election was decided. Nomination papers were taken out in behalf of seven candidates for mayor. Whether Mayor Fitzgerald will enter the contest is not known.

NEW FEATURE IN CURRENCY MEASURE

Provides for Centralization of Half the Reserve.

Washington, Nov. 6.—A new feature was tentatively written into the administration currency bill by the senate committee after a heated wrangle.

The plan was characterized by Chairman Owen, chief administration supporter in the committee, as "equivalent to a central bank."

The new scheme would provide for the centralization of one-half of the reserves to be held by the regional banks in the proposed new system.

This proportion would be placed under the control of the federal reserve board and would be located in Washington, to be administered for the aid and convenience of the entire banking system.

Sensors Reed and Hitchcock joined with the Republicans in voting for the plan, opposed by Senators Owen, Pomeroy, Hollis, O'Gorman and Shafroth.

Senator Owen was agitated over the progress of affairs in the committee.

He declared, if given an opportunity, he would demonstrate that the plan would not work.

It was arranged that Senator Owen should make an argument on the point.

ADMITS HE KILLED DEPUTY

Negro Says He Shot Officer in Self-Defense.

Springfield, Ill., Nov. 6.—Charles Rice, a negro, held as a suspect for the murder of William Martin, special deputy sheriff, last Monday, confessed to committing the crime.

His plea was self-defense. He said he thought the deputy, who had just arrested George Anderson, was going to shoot him.

MEXICAN POLICY HARD TO EXPLAIN

To Prevent Intervention One of the Principal Ideas.

OPPOSITION TO GEN. HUERTA

Inequalities of Postal Law Pointed Out. Cheaper to Send Book to England by Mail Than to Send It Across the Street—"Make Believe" Session of Congress Is Criticized.

By ARTHUR W. DUNN.

Washington, Nov. 6.—[Special.]—Our policy in Mexico—or perhaps it would be well to say with Mexico—seems to be that we want to Monroe doctrine that country to the extent of having all to say, as far as outside influence shall go, seeking the co-operation of foreign nations only in sustaining our position, but insisting that foreign nations shall not dictate terms to Mexico or set up a policy or recognize a government which we deem objectionable.

If a reader cannot understand just what is meant he will be in about the same position as the corps of Washington correspondents who spend half an hour twice a week with the president and as much time every day with the secretary of state trying to find out just what is going on and what it is intended to do.

Fending Off Intervention.

As a matter of fact, the administration is doing its utmost to prevent intervention, to prevent the necessity of sending troops into Mexico or making any hostile movement against any portion of the country or against any faction. That position would be much easier if this government had not absolutely determined that Huerta is not to be recognized and that no government of which he is the head can ever have the support of the United States.

As long as Huerta is in control of Mexico the position of the United States will be peculiar, as we will not deal with him as a rightful head of affairs. Foreign nations are not quite so particular, but they do want their citizens and their property protected.

Postal Inequalities.

Before the days of the parcel post law packages could be sent cheaper to any part of Europe or to Asia cheaper than from point to point in the United States. And all the inequalities have not been straightened out. For instance, a book can be sent to England or Italy or to almost any part of the world from any place in the United States for the same rate of postage as it would take to send it across the street or from New York to Jersey City. With parcels it is different. There are some curious quirks in our postal system.

"Make Believe" Session.

"We are boys grown up," once remarked John Sharp Williams in the house of representatives. And every time congress enters upon a farcical session I am reminded of the Mississippians' words. The present exhibition is just what the children used to do when they called it "make believe." Congress is having a "make believe" session. In the words of Senator Ashurst, the senate "pingpongs" from Monday to Thursday and from Thursday to Monday without doing anything in legislation. The house meets every day because it has no way of adjourning three days at a time.

And all because President Wilson indicated that he did not desire the session to adjourn. The Democrats are carrying out the letter of his wishes, but by telling their men to go home, that there will be no business transacted, they are making sad havoc with the spirit of the president's directions.

Rules Never Change.

Propositions are often presented for changing the rules of the senate, but no changes are ever made. "These salubrious epigrams," mislabeled the rules of the senate," is the way the late Senator White once referred to the code under which the senate is supposed to act, but which is "more honored in the breach than the observance."

"Patriotic Work."

"I introduce a resolution for Senator Clapp of Minnesota," Senator Kenyon told the senate one day, "who is intensely engaged in patriotic work. I also introduce a resolution for the senator from Idaho, Mr. Borah, also absent doing patriotic work."

It was understood that Clapp was making bull moose speeches and Borah was making Republican speeches in the states where elections were to be held.

Clinching It.

Senator Bacon is given to making quite extended arguments and oftentimes says "I repeat," etc., in order to emphasize his statements. He caused a smile in the senate recently by saying, "I repeat that I have not another word to say."

A Possible Bias.

"Of course," remarked John Sharp Williams, speaking of a man interested in legislation, "he no doubt has a bias, just as I would have in questions between north and south, although I try to have none."

But John Sharp knows he is biased; that he really has a deep sectional feeling when the test comes.

Great Qualities.

If we are constant to great qualities we cannot be inconsistent to their possessors.—R. Le Gallienne.

Boston, Nov. 6.—After a few days spent here the British ambassador, Sir Cecil Arthur Spring-Rice, left for Washington. He has improved in health.

FUNK TESTIFIES IN CONSPIRACY CASE

Prosecution Rests in Trial of Lawyer and Detective.

Chicago, Nov. 6.—The state rested its case against Daniel Donahoe and Isaac Stiefel, the lawyer and detective, charged with having conspired to defame Clarence S. Funk.

Funk put the finishing touches on the testimony for the prosecution by taking the witness stand and declaring that he never had seen Mrs. John C. Henning before she testified in this trial.

He disclosed what the state alleged to be the motive for the attacks on Funk by repeating a portion of his testimony in the Lorimer investigation.

The court would not allow Mr. Funk to testify that he had been watched by detectives, one of whom told him that he was in the employ of Edward Hines.

The names of Hines and Lorimer were brought in when Funk reiterated that Hines had asked him for \$10,000 toward a \$100,000 fund that had been used to "put Lorimer over."

An attempt was made by counsel for Stiefel to have the charges against him dismissed on the ground that he was insufficiently implicated by the testimony. The action was denied.

GIRL STANDS BY PRISONER

Wisconsin Man Indicted for Violating White Slave Act.

Chicago, Nov. 6.—Arthur Carey, a furnace salesman of Green Bay, Wis., was indicted for violation of the Mann act. The federal grand jury acted only a few hours before the statute of limitation covering Carey's alleged offense became operative.

Carey is charged with transporting Laura Fleuker from Silver Lake, Wis., to Antioch, Ill., on Nov. 6, 1910.

The law requires that the indictment be made within three years of the violation of the Mann act. Carey was held to the federal grand jury at Green Bay on Monday. No grand jury was in session at Milwaukee and Carey was rushed to Chicago before it was too late for the government to prosecute him.

Miss Fleuker has refused to have any part in the prosecution of Carey. She endeavored to prevent his arrest and went so far as to point a revolver at the deputy marshals. She alleged that she walked across the Wisconsin-Indiana state line with Carey.

MAD KING OTTO DEPOSED

Prince Regent Ludwig Ascends Throne of Bavaria.

Munich, Bavaria, Nov. 6.—The insane King Otto of Bavaria has been deposed from the throne which he occupied for twenty-seven years without being aware of his position. Prince Regent Ludwig proclaimed himself king in pursuance of the provisions of a law just enacted by the two houses of the Bavarian diet.

The new King of Bavaria is to be known as Ludwig III. He probably will take the constitutional oath Nov. 8.

A royal proclamation was posted throughout the kingdom declaring incurable the insanity which has incapacitated Otto from ruling and states that in consequence of this Prince Regent Ludwig has brought his regency to an end, has ascended the throne and nominated himself king.

The deposed King Otto was born April 27, 1848, and succeeded his brother, Ludwig II, who drowned himself in Starnberg lake, June 13, 1888.

HUERTA GETTING READY FOR WAR

BIG INCREASE IN EXPORTS

American Prunes Find Welcome in Far Off Countries.

Washington, Nov. 6.—Stewed prunes, that staple dish of the American boarding house, apparently has found a welcome home in many foreign lands, judging of the large increase in exports from Pacific coast states. Figures compiled by the bureau of foreign and domestic commerce show that during the fiscal year of 1913 more than 118,000,000 pounds, valued at \$6,667,000, were shipped across the seas. In 1898 the exports amounted only to 16,000,000 pounds.

CUSTOMS MEN HEAR MITCHEL

Newly Elected Gotham Mayor Outlines Plans for Economy.

New York, Nov. 6.—The national conference of United States custom house collectors, deputy collectors and surveyors was addressed by John Purroy Mitchell, collector of the port of New York and now mayor elect of the city.

The conference is considering more efficient and economical methods of operating customs service.

TRAIN RUNS INTO SLIDE

Engineer Probably Mortally Hurt in Western Pacific Accident.

Oroville, Cal., Nov. 6.—A train on the Western Pacific railroad known as the Panama-Pacific express plunged into a landslide which had covered the tracks with tons of rock and earth and was wrecked, twenty-three miles north of here.

Engineer John McGraw was perhaps fatally injured. None of the passengers was hurt.

Volturno Hero Promoted.

New York, Nov. 6.—Maurice Spangenberg, first officer of the steamer Grosser Kurfuerst, has been promoted to a captaincy in recognition of the rescue by himself and his men of 105 passengers of the steamer Volturno which burned at sea.

Conscription for Mexican Army in Active Progress.

DELAYS HIS REPLY TO NOTE

Dictator Is Said to Have Intimated His Unwillingness to Accede to American Suggestions and Consequently Leaves the United States Free to Make the Next Diplomatic Move.

Mexico City, Nov. 6.—Provisional President Huerta having failed to reply to President Wilson's latest note it is now considered probable the United States will put its proposition in the form of writing, making a public demand for the immediate retirement of Huerta.

In official circles here it is believed the time limit set by President Wilson for Huerta's reply has expired. The next move, therefore, it is said here, will be President Wilson's.

It is generally understood here that President Huerta practically indicated his unwillingness to accede to the suggestions and consequently left the United States free to make the next move. Charge O'Shaughnessy is merely waiting for further instructions from Washington, it is said.

In view of the warlike preparations now being made and the wide publicity given to the ultimatum it is believed that President Huerta will not yield to the representations of the Washington government.

Conscription for the federal army is actively in progress. For the last four days all able-bodied Mexicans found on the streets have been pressed into the ranks.

Employees of newspapers and other establishments requiring night work are in fear of seizure as they go to and from their places of employment for many such have already been forced into military service.

President Huerta, by decree, made silver 50-cent pieces legal tender as well as the bank notes of the Bank of London and the National bank.

Branches of these banks are also authorized to put out their notes as legal tender. It is specified that while a metal reserve will be retained by the bank the notes shall not be redeemed in specie for one year.

KEEN INTEREST AT CAPITAL

Washington Awaits Word From President Huerta.

Washington, Nov. 6.—Waiting for word from Provisional President Huerta—this was the attitude of official Washington in the Mexican situation. The attitude is that to discuss publicly the delicate phases of the problem might defeat the ends being sought.

The feeling in the capital is none the less one of tense interest, especially as to what course will be pursued in General Huerta declines to abdicate.

ASKS FRANCE TO MEDIATE

Mexico Seeks Settlement With the United States.

Paris, Nov. 6.—The French foreign office was asked informally by the Mexican foreign office if it was disposed to mediate between the United States and Mexico. The French government has taken the attitude that it will do nothing until further advised as to the policy of the United States toward Mexico and then nothing which might be unwelcome.

Columbus, Ohio,
Oct. 5.—Pastor Russell
preached twice
here today. We
report one of his
discourses, from
the text, "If our
Gospel be hid, it is
hid to them that
are lost, in whom
the god of this
world hath blind-
ed the minds of
them which be-
lieve not, lest the light of the glorious
Gospel of Christ, who is the image of
God, should shine unto them."—2 Co-
rinthians 4:3, 4.

I do not charge our forefathers with
evil intent in making the creeds. I
cheerfully admit that every creed con-
tains an element of Bible Truth. My
contention is that Satan has substituted
the creeds for the Bible; and into the
creeds, through human weakness,
he has injected a sufficiency of non-
sense and "doctrines of demons" to
render them unhealthful for saints,
and absolutely poisonous to others,
said the Pastor.

Taking up his text, he declared that
its truthfulness is manifest on every
hand. The word Gospel means "good
tidings of great joy." This Gospel of
Divine Love and Mercy toward our
race is completely hidden from the
world. Even mature Christians discern
but little because the creeds of
human tradition have so misrepresented
God and His purposes as to make
of them bad tidings.

"Hath Blinded Their Minds."

The Pastor pointed out that St. Paul,
as well as the other Apostles, foretold
the falling away of the Church from
"the faith once delivered to the saints."
St. Paul particularly declared that this
would result from giving heed to se-
ducing spirits and doctrines of demons
—the fallen angels. (1 Timothy 4:1.)
In a thousand ways, through mediums,
planchettes, visions and dreams, these
seductive spirits have intruded their
demon doctrines upon God's Church.
Their purpose is to deceive mankind
regarding God's real character and pur-
poses.

The Pastor then showed how success-
ful Satan and his fallen host have
been. While persuading men that they
were afar off stoking fires, they have
really been assisting ecclesiastics in
misinterpretation of the Bible, especially
its parables and symbolical statements.
As a result, the glory of God mani-
fested in Jesus for human salvation is
unintelligible to the world.

The statement of our text, "Hid to
them that are lost," said the Pastor,
does not mean that they are lost be-
cause they cannot see it. The Bible dis-
tinctly tells us that all are lost through
Adam's disobedience. The Apostle
means that the masses of the lost
world cannot see the Gospel light. Soon
Christ will take His power and reign.
His first work will be to bind Satan,
that he may no longer deceive mankind.

What Prison Statistics Mean.

In all modern prisons, statistics are
kept showing what religious training
was received by the prisoners in early
life. In almost every case the prison-
ers guilty of the most serious crimes
were from infancy trained to believe
in eternal torment. In such homes,
fear prevailed instead of love. The
natural effect upon the children would
be a terror of God, a torturing fear
respecting the future.

Even in Christian homes, the par-
ents feared to tell the children their
advanced views. They said, if chil-
dren are scarcely restrained from evil
doing with the thought of eternal tor-
ture, how terrible might be their
course if they were to doubt that doc-
trine! Little did we realize the fool-
ishness of such reasoning. Fear cannot
draw the sinner to God. "The love of
Christ constraineth us."

The Pastor then showed that the in-
fluence of the creeds of the Dark Ages
has been the very reverse of what has
been expected. Man naturally has
reverence for God. The true knowledge
of God would incline men to worship
Him. The highest qualities of their
being would find expression in wor-
ship. With the enlightenment of the
Bible men would learn that all are sin-
ners; that death is the penalty for sin;
but that God has provided through
Jesus' death a reconciliation.

By hiding the Truth from men,
Satan has driven them from their best
Friend—Almighty God. In dread of
God and in fear of the unmerciful
arrangements for the future taught them
from infancy, many have plunged
headlong into sin, striving to forget
God. But a true knowledge of God's
character has revolutionized the lives
of many.

CLEAN HANDS AND A PURE HEART

Pictorial Language of Bible
Amazes Pastor Russell.

The Significance of the Picture—What
It Is to Ascend into the Holy Hill,
What Is Meant by Standing in the
Holy Place—Who Have the Clean
Hands—What Is Signified by a Soul
Lifted Up to Vanity—Who Are Those
Who Swear Deceitfully—The Terms
and Conditions of the Divine Re-
wards—Christ the Great Exemplar.

(PASTOR RUSSELL)

(Psalm 24: 3, 4.) He said:

The pen pictures of the Bible astound
us with their clearness, force and
pointedness. The Prophet David was
not writing with ordinary poetic li-
cense, but was stating poetically grand
truths which he himself could not
fully appreciate. St. Peter tells us that
this was the case with all the Prophets.

Then the Pastor, interpreting his text
as a prophecy, showed that Mt. Zion
typified the Messianic Kingdom, and
the holy place of Israel the antitypical
Temple of the future, Jesus Christ be-
ing the chief Corner Stone and the
faithful saints the living stones.

The context shows that the Psalm
applies primarily to the Lord Jesus
Christ. "He that hath clean hands"
would signify he who is willing and
able to keep the Divine Law perfectly.
"He that hath a pure heart" is he in
whom there is no admixture of disloy-
alty or selfishness or sin. The Lord
Jesus alone could and did keep the Di-
vine Law, both in letter and in spirit.

Other Tests Were Necessary.

The full keeping of the Law was not
the only requisite in the great Hierarchy
of the Abrahamic Covenant. He must ful-
fill all prophecies concerning Messiah.
In these God had caused to be set forth
tests respecting the humility and loyal-
ty of the One performing them.

The Pastor showed conclusively from
Scripture that our Redeemer fulfilled
these requirements perfectly, and
through obedience entered the Messianic
glory. He did not swear deceit-
fully, but kept to the very letter the
Covenant of Sacrifice which He made
with the Father. Neither did our Lord
"lift up His soul unto vanity," nor
hearken to the Adversary's admoni-
tions. On the contrary, He humbled
Himself even unto the death of the
cross. Because of His faithfulness,
God gave Him a name above every
name—Messiah, the King of glory.

"Lift Up Your Heads, Ye Gates."

Pastor Russell interpreted the re-
minder of the Psalm as a picture of
our Redeemer entering into His glo-
rious reward. The ushering of Mes-
siah into the honor and glory of the
Kingdom, to establish righteousness in
the earth, to put down rebellion and
sin, and to destroy the works of the
Devil, is really the ushering in of Je-
hovah's Kingdom, for which we pray.

The result of Jesus' conquering work,
begun at Calvary and to be completed
during His Millennial Reign, will be
that Jehovah will be hailed Lord of all.
In accepting the terms of the Kingdom
the world will really be bowing to Je-
hovah and entering that condition
where He can grant them endless life.

Columbus, Ohio.
Pastor Russell preached twice
here today. We report one of his
discourses, from the text, "If our
Gospel be hid, it is hid to them that
are lost, in whom the god of this
world hath blinded the minds of
them which believe not, lest the light
of the glorious Gospel of Christ, who
is the image of God, should shine
unto them."—2 Corinthians 4:3, 4.
I do not charge our forefathers with
evil intent in making the creeds. I
cheerfully admit that every creed
contains an element of Bible Truth.
My contention is that Satan has sub-
stituted the creeds for the Bible; and
into the creeds, through human weak-
ness, he has injected a sufficiency of
nonsense and "doctrines of demons"
to render them unhealthful for saints,
and absolutely poisonous to others,
said the Pastor.
Taking up his text, he declared that
its truthfulness is manifest on every
hand. The word Gospel means "good
tidings of great joy." This Gospel of
Divine Love and Mercy toward our
race is completely hidden from the
world. Even mature Christians dis-
cern but little because the creeds of
human tradition have so misrepresented
God and His purposes as to make
of them bad tidings.
"Hath Blinded Their Minds."
The Pastor pointed out that St. Paul,
as well as the other Apostles, foretold
the falling away of the Church from
"the faith once delivered to the saints."
St. Paul particularly declared that this
would result from giving heed to se-
ducing spirits and doctrines of demons

In a thousand ways, through mediums,
planchettes, visions and dreams, these
seductive spirits have intruded their
demon doctrines upon God's Church.
Their purport is to deceive mankind
regarding God's real character and pur-

The Pastor then showed how success-

The statement of our text, "Hid to

does not mean that they are lost be-
cause they cannot see it. The Bible dis-
tinctly tells us that all are lost through
Adam's disobedience. The Apostle

Examination of Jurors in the So-called Kidnaping Case Exhausts The Panel

SEVEN JURORS NOW ACCEPTED

George C. Payne Last Seen at River-ton Where He Was Building Cement Foundation

- The jury as chosen to date is mostly composed of farm-ers:
- 1. J. K. Campbell, of Dag-get Brook.
- 2. C. M. Coleman, of Bay Lake.
- 3. H. R. Keeler, of Ross Lake.
- 4. Martin Halvorsen, of Roosevelt.
- 5. John Dewing, of Roose-velt.
- 6. Frank Fredstrom, of Brainerd.
- 7. R. H. Capistrant, of St. Mathias.

At the Wednesday afternoon ses-sion of the so-called kidnaping case the work of selecting a jury to try the defendants accused of forcibly taking one Teodor Slogren from Crosby, was resumed.

John Aro was excused. Frank Fredstrom was the sixth jurymen ac-cepted. Mr. Fredstrom is a milkman and his dairy farm is close to the city limits of Brainerd.

Christ Anderson was examined and excused. So was Herman Peterson, of Deerwood. H. Weldeman, Martin E. Nelson and Alfred Anderson were not accepted.

R. H. Capistrant, a farmer of St. Mathias, was accepted and made the seventh jurymen. Clayton Hollings-worth, of Merrifield, and Fred Davis were not accepted.

This exhausted the panel and the court ordered a special venire return-able at 1 o'clock Thursday afternoon, when the trial will be resumed.

George C. Payne, the defendant who was not present and whose bail was declared forfeited, was last seen at River-ton where he has had a con-tract putting in a cement foundation at the Flitzer hotel. He drew, it is said, quite a large balance and then left no one knows where. A bench warrant has been issued for his ar-rest.

BREAKS A COLD IN A FEW HOURS—PAPE'S

First Dose of Pape's Cold Compound Relieves all the Grippe Misery—Contains No Quinine

Don't stay stuffed up! Quit blowing and snuffing! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken will end grippe misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nos-trils and air passages; stops nasty discharge or nose running; relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only 25 cents at drug stores. It acts without assistance, tastes nice, and causes no inconvenience. Don't accept a substitute.—Advt.

Getting Back.

"Why do you insist on trying to sell me beefsteak and beans and buck-wheat cakes?" demanded the barber. "I told you all I wanted was two fried eggs."

"Well, I was in your shop yester-day," retorted the restaurant man. "All I wanted was a shave, but you buzzed me into a shampoo, a foam duds and a tonic rub."—Pittsburgh Post.

WOUNDED HUNTER IN HAYSTACK

Special to Dispatch: Little Falls, Minn., November 6—Matt Pilarski, a farmer in Platte Lake township, found last Sunday an injured hunter in his haystack, the man having been in the hay two days and nights. He had been shot through the legs with a rifle. He refused to give his name. Later some men came to the farmers' home and took the wounded man away. The supposition based on their se-crecy is that the whole party may have been "sooners" after deer who wished to avoid publicity. Pilarski thinks the wounded man may have come from Brainerd or Iron-ton.

PIONEER PASSED AWAY

Hans Jabe, for Many Years a Resi-dent of County, Died at Home Near Neutral

Hans Jabe, aged 73, for thirty or more years a resident of Crow Wing county passed away while driving to his home near Neutral. He was widely known about the country as an active and experienced farmer, public spirited and generous.

He leaves a wife and three chil-dren by his first wife, being Mrs. E. D. Gruenhagen and Mrs. Bert Scott, of Brainerd, and Henry Jabe of Min-neapolis. His five stepsons were William F. Holst of Brainerd, August Holst who is farming near Brainerd, Herman and Rudolph Holst of Seat-tle, Wash., and Charles Holst of Brainerd.

While residing in Wisconsin he was a member of the German Luther-an church. No funeral arrangements have been announced until all rela-tives can be communicated with.

Extend a Helping Hand

By giving us five minutes of your time you can help to bring comfort to some of our people who will oth-erwise suffer during the cold winter months.

We ask no money—we ask that you gather up your cast-off wearing ap-parel and when we call for it Wed-nesday and Thursday, Nov. 12 and 13, meet us with a smile and some garments wrapped in a bundle, which will comfort someone who needs the protection.

A small contribution from each who can afford it, will do a large amount of good.

The committee will appreciate any kind of wearing apparel which will help to shelter the body, such as gar-ments, shoes, caps, underwear and childrens school wraps.

Some help may be extended to un-worthy parties, but if we can only reach a few needy ones our work is well paid for.

BIBLE CLASS BANQUET HELD

175 Present at Baptist Church In-cluding Many From Barrows and Pequot

H. F. MICHAEL IS TOASTMASTER

Dr. Joseph Nicholson, G. A. Beale, A. M. Locker and Miss Elizabeth Kilpatrick Spoke

The Brainerd district Sunday school convention which has been in session for two days at the First Methodist church closed last night with an adult Bible class banquet in the First Baptist church. There were about 175 present including a number from Barrows and Pequot. The banquet was provided by the la-dies of the First Methodist church.

H. F. Michael presided as toast-master and introduced as the first speaker Dr. Joseph Nicholson, presi-dent of the Crow Wing County asso-ciation, who spoke briefly on the aims and methods of the county work, urging the organization of adult Bible classes in all the schools. G. A. Beale, superintendent of the Bible school of the First Baptist church, was introduced and told of the effi-ciency of the classes in his school. This is admittedly one of the best or-ganized schools in the county. A. M. Locker, the general secretary of the state association, was then in-troduced and spoke of the high stand-ard of the county as a whole in Sun-day school organization. Mr. Locker was formerly a school teacher, hav-ing been superintendent of schools in a number of southern Minnesota cities and was elected to his present position about fifteen years ago. In that time he has seen the Sunday school work of the state develop from its crude original form to a highly developed organization touching every part of the state. There are twelve points of excellence set as the standard of every county, and when a certain percentage of the schools of the county reach that standard it is designated a "blue ribbon county." Crow Wing county has already reached that standard. Mr. Locker said that when a sufficient number of counties of the state had become blue ribbon counties the standard would be placed a little higher.

The main speaker of the evening was Miss Elizabeth Kilpatrick, of Corinth, Miss. She is the teacher of an original class of men with 500 members in a town of about 8,000. More than half the population is ne-gro and of course there are no negroes in her class, so that the contributing population is about 3,500 and there are three or four other churches in the city. The men composing the class are from all walks of life and the class itself is engaged in all manner of philanthropic work. They have a complete censorship of all the picture shows of the city, the pic-ture show man being a member of the class. She said this was done without legislation; that her Bible class makes the public sentiment of the city. The class contributes more than \$700 per year for mis-sions alone. The address abounded in witticisms and incidents and as an entertainment was a great suc-cess, which of course the local work-ers hope will be supplemented by larger success in the various Bible classes of the city.

The Glass Snake.

Nine hun-dred street car men have asked for higher wages. The attendant dis-orders have resulted in a complete tieup of local and interurban street railways since last Friday night.

ANTI-SOCIALIST TO TALK

Peter W. Collins, Economic Student and Author, Brought to City by K. C. Council

At 8 o'clock Friday evening, Nov-ember 7, at the Gardner auditorium, Peter W. Collins will speak on So-cialism, appearing under the auspices of the local Knights of Columbus council.

Mr. Collins, in the course of his Minnesota tour, included Bemidji and Brainerd in his itinerary. It is but proper to have a glimpse of the man and his work who has stirred up en-dless discussion and arguments and caused many to think deeply and ponder over the lecture he gives on Socialism.

Mr. Collins needs no introduction to the men and women interested and active in the progress of con-structive social service. Evincing a wide knowledge of economic, sociol-ogical and industrial conditions on the public platform, his name has been associated intimately in the minds of thousands in many states of the Union with the rise of the Social Reform and the Defense against So-cialism.

Mr. Collins is the author of "The Truth About Socialism," published by the Central Bureau of the Central Vehein, of "What is Socialism?" "Why Socialism is Opposed to Trade Unionism," and "Why Socialism is Opposed to the Catholic Church." The latter ran as a series of articles in the Catholic press of America.

Mr. Collins held the office of inter-national secretary of the Interna-tional Brotherhood of Electrical Workers and was editor of "The Elec-trical Worker" for many years.

He served on the Industrial Com-mission of Illinois, being appointed by the Governor of that State in 1908. This commission was the first of its kind in the United States. It reported to the legislature a code of laws for the health, safety and com-fort of the workers in the establish-ments and industries of Illinois.

These laws in the few years they have been in operation have been the means of saving thousands of lives from death by accident from unguard-ed machinery.

This commission also reported to the legislature the recommendations for legislation limiting the hours of women workers. The bill adopted to cover the recommendation has stood the test of the Illinois Supreme Court and the Supreme Court of the United States.

GIRLS! STOP WASHING THE HAIR WITH SOAP

Soap dries your scalp, causing dan-druft, then hair falls out—Try this next time

After washing your hair with soap always apply a little Danderine to the scalp to invigorate the hair and pre-vent dryness. Better still, use soap as sparingly as possible, and instead have a "Danderine Hair Cleanse." Just moisten a cloth with Danderine and draw it carefully through your hair, taking one strand at a time. This will remove dust, dirt and ex-cessive oil. In a few moments you will be amazed, your hair will not only be clean, but it will be wavy, fluffy and abundant, and possess an incomparable softness and lustre.

Besides cleansing and beautifying the hair, one application of Danderine dissolves every particle of dan-druft; stimulates the scalp, stopping itching and falling hair. Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarat-ing and life-producing properties cause the hair to grow long, strong and beautiful.

Men! Ladies! You can surely have lots of charming hair. Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it.—Advt.

Removal of the Tonsils. The operation of removal of the tonsils is a much more serious one than it is popularly considered and should certainly not be entered upon lightly, but discreetly, advisedly and soberly. Tonsils should not be re-moved for trivial symptoms. Ton-silotomy is not justifiable simply be-cause the tonsils protrude in front of the pillars, or because they look ragged or for occasional sore throat, or be-cause they contain plugs, or because the patient is under ether for adenoids, or for any remote symptoms not of a serious nature, or to protect the child from indefinite infection, or for an oc-casional attack of simple acute ton-sillitis.—Boston Surgical Journal.

At the Wednesday afternoon session of the so-called kidnaping case the work of selecting a jury to try the defendants accused of forcibly taking one Teodor Sjogren from Crosby, was resumed.

John Aro was excused. Frank Fredstrom was the sixth jurymen accepted. Mr. Fredstrom is a milkman and his dairy farm is close to the city limits of Brainerd.

Christ Anderson was examined and excused. So was Herman Peterson, of Deerwood. H. Weideman, Martin E. Nelson and Alfred Anderson were not accepted.

R. H. Capistrant, a farmer of St. Mathias, was accepted and made the seventh jurymen. Clayton Hollingsworth, of Merrifield, and Fred Davis were not accepted.

This exhausted the panel and the court ordered a special venire returnable at 1 o'clock Thursday afternoon, when the trial will be resumed.

George C. Payne, the defendant who was not present and whose bail was declared forfeited, was last seen at River-ton where he has had a contract putting in a cement foundation at the Flitzer hotel. He drew, it is said, quite a large balance and then left no one knows where. A bench warrant has been issued for his arrest.

ANTI-SOCIALIST TO TALK

Peter W. Collins, Economic Student and Author, Brought to City by K. C. Council

At 8 o'clock Friday evening, November 7, at the Gardner auditorium, Peter W. Collins will speak on Socialism, appearing under the auspices of the local Knights of Columbus council.

Mr. Collins, in the course of his Minnesota tour, included Bemidji and Brainerd in his itinerary. It is but proper to have a glimpse of the man and his work who has stirred up endless discussion and arguments and caused many to think deeply and ponder over the lecture he gives on Socialism.

Mr. Collins needs no introduction to the men and women interested and active in the progress of constructive social service. Evincing a wide knowledge of economic, sociological and industrial conditions on the public platform, his name has been associated intimately in the minds of thousands in many states of the Union with the rise of the Social Reform and the Defense against Socialism.

Mr. Collins is the author of "The Truth About Socialism," published by the Central Bureau of the Central Verein, of "What is Socialism?" "Why Socialism is Opposed to Trade Unionism," and "Why Socialism is Opposed to the Catholic Church." The latter ran as a series of articles in the Catholic press of America.

Mr. Collins held the office of international secretary of the International Brotherhood of Electrical Workers and was editor of "The Electrical Worker" for many years. He served on the Industrial Commission of Illinois, being appointed by the Governor of that State in 1908. This commission was the first of its kind in the United States. It reported to the legislature a code of laws for the health, safety and comfort of the workers in the establishments and industries of Illinois.

These laws in the few years they have been in operation have been the means of saving thousands of lives from death by accident from unguarded machinery.

This commission also reported to the legislature the recommendations for legislation limiting the hours of women workers. The bill adopted to cover the recommendation has stood the test of the Illinois Supreme Court and the Supreme Court of the United States.

GIRLS! STOP WASHING THE HAIR WITH SOAP

Soap dries your scalp, causing dandruff, then hair falls out—Try this next time

After washing your hair with soap always apply a little Danderine to the scalp to invigorate the hair and prevent dryness. Better still, use soap as sparingly as possible, and instead have a "Danderine Hair Cleanse." Just moisten a cloth with Danderine and draw it carefully through your hair, taking one strand at a time. This will remove dust, dirt and excessive oil. In a few moments you will be amazed, your hair will not only be clean, but it will be wavy, fluffy and abundant, and possess an incomparable softness and lustre.

Besides cleansing and beautifying the hair, one application of Danderine dissolves every particle of dandruff; stimulates the scalp, stopping itching and falling hair. Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating and life-producing properties cause the hair to grow long, strong and beautiful.

Men! Ladies! You can surely have lots of charming hair. Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it.—Adv't.

Removal of the Tonsils.

The operation of removal of the tonsils is a much more serious one than it is popularly considered and should certainly not be entered upon lightly, but discreetly, advisedly and soberly. Tonsils should not be removed for trivial symptoms. Tonsillotomy is not justifiable simply because the tonsils protrude in front of the pillars, or because they look ragged or for occasional sore throat, or because they contain plugs, or because the patient is under ether for adenoids, or for any remote symptoms not of a serious nature, or to protect the child from indefinite infection, or for an occasional attack of simple acute tonsillitis.—Boston Surgical Journal.

RESOLUTIONS

The Lord in His infinite wisdom has seen fit to remove from our midst our esteemed brother, Lars J. Twist.

In his demise we have lost a valuable member of our Brotherhood, the family a loving husband and father, and the community at large a worthy and respected citizen.

Be it resolved by the Homestead No. 602, Brotherhood of American Yeomen, that we have lost a dear brother and to show our respect will drape our charter for a period of 60 days, have this resolution inserted in the Brainerd Daily Dispatch, spread on our minutes, and a copy thereof sent to the bereaved family.

AMERICAN ROADS TO MEET IN CONGRESS DETROIT SEPT. 29

Thirty States Have Named Delegates to Attend Big Gathering.

To Discuss All Phases of National and State Roads Problems.

THIRTY governors have already named their delegates to the third annual American road congress, which will open in Detroit on Sept. 29, and it is expected that a number of the governors will be present at the congress in person.

Governor McCreary of Kentucky, which state has recently established a state highway department, expects to attend the meeting, and it now seems assured that the heads of every state highway department from Maine to California will personally take part in the big meeting. As a result of this unusual interest the demand for exhibit space by manufacturers has been unprecedented. All available space has been already reserved by nearly 100 manufacturers, including every kind of roadmaking machinery, engineering instruments, concrete machinery, bridges, culverts, concrete, wood block, asphalt, tar and oil preparations.

Progress Is Expected.

Important progress is expected to be made along three great lines affecting the good roads movement. The congress will endeavor to agree upon a policy of national aid, which, with the united support of the good roads workers throughout the country, will be submitted to the congress of the United States. Steps will be taken at the session on state road legislation, to be held under the auspices of the American Bar association, for the formation, through official action by the several states, of an interstate commission to codify and simplify existing state road laws. At present most of the states are laboring under a weight of antiquated and contradictory road laws, and it is plain that the commission will recommend simple, clear cut and uniform road laws as a substitute for legislation. Maintenance of roads will be discussed from every standpoint during the sessions held by the American Highway association, the parent organization in the congress, and the engineers will endeavor to determine among themselves the steps which should be taken in the several states to insure adequate maintenance.

Big Exhibit Planned.

Nearly a hundred exhibitors have taken space for the great exhibition which is to be held in conjunction with the third annual American road congress. This exhibition will be the most important ever held in the history of roadmaking in America and is in line with the movement to make the American road congress an annual training school for road and street officials and to enable these gentlemen to increase their efficiency through the exhibition of material and equipment and also through lectures given by leading specialists. Every known road material will be shown, and the government exhibits will illustrate the exact methods of constructing every recognized type of road. The exhibit will in reality be a gathering place for all men who are actually directing the

building, maintenance and administration of streets and highways. These gentlemen will become personally acquainted and will gain greatly through the exhibit and the discussions which are certain to arise over the various machinery and materials to be shown. Devices for road building, the methods of road building and materials will be freely discussed, and knowledge will be obtained at this exhibition in a short space of time that could not be secured otherwise.

Program of Events.

The tentative program for the congress has been announced. At 9 a. m. Monday, Sept. 29, the registration books for members and delegates will be opened at the secretary's office, in the Wayne gardens, where the badges, programs, cards, etc., will be distributed. The first meeting of the congress will be held at 10 a. m., Sept. 29, and will be called to order by Logan Walker Page, president of the congress. The second session will be held at 2:30 p. m. of the same day. A reception or garden party will be held late in the afternoon of the first day in honor of the distinguished guests of the congress. This will be followed during the week by a series of banquets and entertainments by the board of commerce and various commercial clubs.

Tuesday's program will be given under the auspices of the American Automobile association, starting at 10 o'clock. Representative Frank E. Doremus will preside. George C. Diehl, chairman of the good roads board of the American Automobile association, will introduce the presiding officers. National aid and national highways will be discussed by many prominent speakers. The Lincoln Highway association will occupy a portion of the program. At the afternoon session of Tuesday state legislation and road management will be taken up under the auspices of the American Bar association. The manufacturers represented in the session will arrange for special entertainments for the evening.

Wednesday will be devoted to construction and maintenance and will be under the auspices of the American Highway association. The afternoon session will be known as the "road users' session," under the auspices of the American Automobile association, and on the afternoon of Thursday there will be held a finance session. The American Bankers' association has charge of this. Friday will be Michigan day, and Chairman P. T. Colgrove, president of the Michigan State Good Roads association, will preside. Saturday the congress will close.

Road Legislation Topic.

National roads legislation will be a topic second to none discussed at the American road congress. This subject is one which has greatly concerned the A. A. A. national good roads board, and hence it is logical that the national legislation session should be under the auspices of the American Automobile association, which co-operates with the American Highway association in this most important of good roads gatherings. The American Highway association includes in its membership the general good roads associations in all parts of the country, while the American Automobile association contains 600 state and local motor clubs, though both the A. H. A. and the A. A. A. also include thousands of individual members. Since the National Association of Road Materials and Machinery Manufacturers conducts its annual exhibition as a part of the American road congress the country wide importance of the gathering places it in advance of all highway conventions.

Legislators to Speak.

"National roads legislation day."

which will be held Tuesday, will have speakers of national reputation and men who have given much time and thought to this phase of the great subject. Three members of the joint committee of congress on federal aid have already been invited, and since these three have put forward definite propositions concerning national roads legislation their addresses are certain to be listened to with unusual interest. Chairman Jonathan P. Bourne of Oregon, Vice Chairman Dorsey W. Shackelford of Missouri and Senator Claude Swanson of Virginia are the three joint committee members who have definite plans to present. Since Representative Shackelford is the chairman of the new committee on public roads of the house of representatives it is expected he will propose something new, as he has recently made a statement which would indicate that further thought has been advanced phases to him.
